Chinese-made "test" kits.

The CDC insists this new strain could be more deadly than previous strains, particularly in people who got jabbed and now have a wrecked immune system as a result.

"The large number of mutations in this variant raises concerns of greater escape from existing immunity from vaccines and previous infections compared with other recent variants," the CDC said in a statement, citing an internal assessment.

"For example, one analysis of mutations suggests the difference may be as large as or greater than that between BA.2 and XBB.1.5, which circulated nearly a year apart."

Since virus samples of BA.2.86 "are not yet broadly available for more reliable laboratory testing of antibodies," the CDC says "it is too soon to know the real-world impacts on immunity."

(Related: Hollywood is [gearing up](#) for the next round of COVID tyranny with at least one production company, Lionsgate, forcing all of its in-office employees back into oxygen-restricting face masks.)

Is "BA.2.86" the cover story for ADE and AIDS in the fully vaccinated?

The timing of this CDC announcement matches earlier warnings we issued about how eventually the fully jabbed would start to catch every cold, flu and other disease that is circulating at any given time due to [vaccine-induced AIDS](#), which has left these people's bodies vulnerable to catching *everything*.

Could it be that BA.2.86 does not even exist, or that perhaps it is just another seasonal cold virus – colds are caused by coronaviruses, by the way – that is circulating that is going to cause the fully

If BA.2.86 is not responsible, then what is? Are the fully jabbed succumbing to the ongoing degradation of their immune systems, which is so failing them that they get sick and require hospitalization for even minor infections?

Big Pharma sure is excited about this news, announcing plans to release new "booster" shots this fall that supposedly help to ward off the latest COVID variant.

"I have a couple family members who work at a hospital and they are telling me that clots are through the roof and are occurring in people who wouldn't normally get them," one commenter wrote about another post-Operation Warp Speed phenomenon.

"They aren't normal clots either," responded another.
